

Themes (5) The Ferengi JanDulansen for GeneXus shows the same problems as the Ferengi from Deep Space Nine. Though he has a subtitle, it. Euro Truck Simulator 2 - Beyond the Baltic Sea crack by irfan doggarQ: How should I store my youtube channel in a MySQL Database I need to store a youtube channel in a MySQL database, what type of format should I put it in? A: For obvious reasons I wouldn't even try to store the channel id in a Mysql database, I'd assume the channel id is 32 bit and other than that, store the channel id in the universal ID they give you in the database. What I would do is have a table with the users in it, and a table with the channels they subscribe to. MyYoutubeUser ----- user_id user_name user_age user_gender user_profile_id MyYoutubeChannel ----- channel_id channel_name user_id user_profile_id Where the user_profile_id is the universal id they provided when they uploaded the video and the user_id is what user_id they provide when they sign up with your application. 1. Field of the Invention The present invention relates to an apparatus for etching a substrate and, more particularly, to an apparatus for etching a substrate that is suitable for etching a semiconductor substrate used for a semiconductor device. 2. Description of the Related Art In recent years, with the advance of miniaturization of a semiconductor device, a gate length of a transistor formed on a semiconductor substrate has decreased. As a result, when a polysilicon layer used as a gate electrode and other layers are etched, there is a problem in that the fine patterning of a semiconductor substrate is difficult. A method of etching a substrate by using a reactive ion etching apparatus (RIE) that causes plasma of a halogen-containing gas such as Cl₂, F₂, BCl₃ and so on, has been proposed for solving this problem. This method is called an RIE apparatus (see Japanese Patent Laid-open Publication Nos. 11-206283 and 10-177063, for example). With the increasing miniaturization of a transistor formed on a semiconductor substrate, the RIE method is
